PROFESSIONAL SUMMARY

Business Intelligence and Data Analytics professional with 5+ years of hands-on experience in developing enterprise dashboards, analytical reports, BI solutions, and data models using Power BI, DAX, SQL Server, Power Query, and SSIS. Strong expertise in data modelling, Star Schema, data warehousing, ETL processes, KPI development, performance optimization, and automated reporting solutions. Experienced in transforming multi-source operational and financial data into actionable business insights, including banking and financial analytics.
Additionally, brings professional experience dating back to 2016 in aviation operations, air cargo and warehouse management, shipment documentation, airline systems, customs coordination, and aviation licensing administration. Experienced in flight manifest processing, ASYCUDA customs system integration, admin Sky Cargo system, shipment tracking, regulatory documentation, and operational reporting. Combines technical expertise in data analytics and process automation with practical aviation operations experience to improve data accuracy, operational efficiency, and business decision-making.

TECHNICAL SKILLS

- **BI & Reporting**: Power BI, Dashboard Development, Report Development, Executive Dashboards, KPI Design
- **Data Modeling:** Semantic Models, Star Schema, Dimensional Modeling, Fact Tables, Dimension Tables, Data Warehouse
- **Data & ETL:** SQL Server, Advanced SQL, SQL Queries, Stored Procedures, SSIS, Power Query, ETL, Data Transformation
- **Analytics: DAX,** Measures, Calculated Columns, Time Intelligence, Financial Analytics, Banking Analytics
- **Power BI Service:** Gateway, Scheduled Refresh, Incremental Refresh, Row-Level Security (RLS), Performance Optimization
- **Cloud & DevOps:** Microsoft Azure, Microsoft Fabric Fundamentals, Azure DevOps
- **Automation:** Power Automate, Automated Reporting, Data-Driven Workflows
- **Systems:** SAP, Odoo, Oracle.
- **Aviation Systems:** (Sky chain) Emirates Sky Cargo, Qatar Airways (CROMAIS), Sudan Customs (AYSCUDA)

SOFT SKILLS

- Attention to Detail & Data Accuracy
- Communication & Interpersonal Skills
- Cross-Functional Collaboration
- Time Management & Prioritization
- Planning & Organization
- Adaptability & Flexibility
- Warehouse Inventory

PROFESSIONAL EXPERIENCE

POWER BI DEVELOPER — FREELANCE PROJECTS
Riyadh, Saudi Arabia | 10/2025 – Present

- Designed and developed 8+ interactive Power BI dashboards covering Sales, Finance, Operations, HR, and Healthcare.
- Developed BI reports and dashboards using Power BI, DAX, Power Query, and SQL-based data sources.
- Built and maintained Power BI semantic models using Star Schema, fact and dimension tables, relationships, measures, and business KPIs.
- Developed advanced DAX measures, calculated columns, and analytical calculations to support business reporting and decision-making.
- Integrated and transformed data from multiple sources using Power Query and SQL.
- Implemented data cleaning, validation, standardization, and quality checks to improve reporting accuracy.
- Optimized Power BI reports and data models, reducing refresh time from 12 minutes to 4 minutes and storage consumption by approximately 30%.
- Automated Power BI reporting processes for 6+ business users, reducing manual reporting effort by approximately 40%.
- Configured Power BI Service solutions including scheduled refresh, gateway connectivity, RLS, and automated reporting workflows.

- Developed financial and banking analytics dashboards covering customer retention, cross-selling opportunities, loan approval rates, revenue generation, and financial KPIs.
- Translated business requirements into analytical data models, dashboards, reports, and actionable KPIs.

CARGO STOREKEEPER ASSISTANT — BADR AIRLINE
Khartoum, Sudan | 04/2021 – 10/2025

- Received and verified 3000+ air cargo shipments per month, ensuring accurate matching of cargo manifests against physical shipments.
- Inspected 50000+ shipments per month, identifying damaged goods and reporting discrepancies to the relevant departments.
- Monitored and verified 100000+ incoming and outgoing shipment records, improving cargo tracking accuracy and documentation reliability.
- Coordinated with the Customs Department to register aircraft movements in the ASYCUDA system, supporting timely and accurate customs processing.
- Followed up on 5000+ cargo inspections and clearance cases per month, coordinating with customs officials to facilitate shipment processing.
- Registered and updated ownership details for 10000+ inspected shipments, improving cargo traceability and record accuracy.
- Prepared 12 monthly, 4 quarterly, and 1 annual report per year to monitor aircraft movements, cargo volumes, and warehouse operations.
- Developed a Microsoft Access-based database system for the Delivery Order Office, centralizing records for faster retrieval and more efficient document management.
- Conducted 12 warehouse inventory checks annually, identifying long-stored shipments and reporting them to the Customs Department for appropriate action.
- Organized and classified 20000+ shipments by category, identification number, size, value, and handling requirements, including dangerous goods.
- Implemented a systematic coding and archiving process for airway bills and shipment documents, maintaining both electronic and physical records to improve retrieval efficiency and document traceability.

PROGRAMME SUPPORT ASSISTANT AND REPORTING - IOM
Khartoum, Sudan | 01/2020 – 01/2021

- Developed and optimized Power BI dashboards and analytical reports to support business users and data-driven decision-making.
- Managed Excel master datasets and processed data from 1,500+ forms, ensuring data accuracy, consistency, and accessibility.
- Received preliminary project proposals and documentation from beneficiaries, standardized the information using designated forms, and submitted the completed records to the Finance Department for review and processing.
- Coordinated airport reception procedures for voluntary returnees arriving from neighbouring countries, facilitating health screening by the relevant medical authorities.
- Registered returnees with the organization and facilitated the distribution of communication devices and financial assistance in accordance with established procedures.
- Coordinated the provision of assistance and registration of returnees with the Health Insurance Authority to support access to healthcare and follow-up on their medical needs.
- Conducted follow-up interviews and assessments to document returnees' circumstances and vulnerabilities in their countries of origin, recording their travel experiences from departure through their return via the voluntary return program.
- Completed vulnerability assessment forms and maintained accurate beneficiary records to support case management, reporting, and the delivery of appropriate humanitarian assistance.

CARGO WAREHOUSE AGENT — MAKS
Khartoum, Sudan | 07/2019 – 01/2020

- Managed cargo warehouse operations, including the storage, organization, and handling of shipments in accordance with operational procedures.
- Verified cargo condition and updated shipment records in the Emirates Sky Cargo Sky Chain system to ensure accurate and up-to-date cargo information.
- Maintained accurate operational records, supported shipment data collection, and prepared reports to facilitate cargo tracking and warehouse management.

- Coordinated with the Customs Department to follow up on shipments, verify cargo status, and facilitate customs procedures for cargo owners.
- Conducted monthly warehouse inventories, reconciled physical stock records, and submitted inventory reports to the relevant authorities, including the Customs Department.
- Recorded and verified cargo released from the warehouse, ensuring accurate quantity counts and confirming the details of collected shipments with their respective owners.

CARGO OFFICER — NATIONAL AVIATION SERVICES
Khartoum, Sudan | 11/2016 – 04/2019
Air Cargo Operations & Systems Expertise

- Managed air cargo operations and shipment documentation, ensuring data accuracy and compliance with operational procedures.
- Monitored shipment details, cargo quantities, flight manifests, and operational workflows to support efficient cargo handling and tracking.
- Coordinated with airlines to enhance the **ASYCUDA Customs System** through XML-based flight manifest integration, enabling bulk data uploads and reducing manual data entry.
- Contributed to reducing manual processing time and workload by approximately **80%** through automated data integration.
- Coordinated with customs authorities and relevant stakeholders to streamline customs clearance and expedite cargo release.
- Demonstrated working knowledge of **Qatar Airways Cargo CROAMIS** and **flydubai Cargo SkyChain** systems, including shipment registration, data verification, status monitoring, and follow-up.

ADMINISTRATIVE ASSISTANT — CAA, KHARTOUM AIRPORT
Khartoum, Sudan | 03/2015 – 01/2016
Aviation Licensing & Administrative Support

- Managed administrative records, documentation, and data entry activities, ensuring accuracy and compliance with established procedures.
- Prepared reports and maintained accurate operational records to support administrative efficiency and regulatory compliance.
- Received and reviewed certificates and supporting documents submitted by pilots, cabin crew members, and flight operations officers, verifying their completeness and validity for aviation licensing and certification procedures.
- Monitored aviation licensing and certification processes, verified medical examination dates and validity, and followed up on required documentation to support the timely issuance and renewal of licences and certificates.
- Prepared examination materials, documentation, and required supplies for aviation licensing examinations and assisted in supervising examination sessions in accordance with established procedures.
